

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## LIBRARIAN'S REPORT.

OFFICE OF THE STATE LIBRARIAN,  
Des Moines, July 1, 1893.

*To His Excellency, HORACE BOIES, Governor of Iowa:*

SIR:—The following report of the Iowa State Library, for the biennial period beginning July 1, 1891, and ending June 30, 1893, is respectfully submitted:

Since the last report additions have been made as follows:

By purchase.....	3,621
By donation and exchange.....	1,939
Total.....	5,560
Making a total of 44,818 volumes in the library.	

Besides the general biennial appropriations of \$6,000 for the purchase of books, and \$1,000 for the rebinding of books and the binding of periodicals, the Twenty-fourth General Assembly made an additional appropriation of \$5,000 to be used in the purchase of books for the miscellaneous departments.

In the expenditure of this latter fund particular attention has been given to the reference department, to religion, science, biography, fine arts and Americana. Among these may be enumerated the following important volumes:

- The Rand-McNally Indexed Atlas of the World.  
Iconographic Encyclopædia..... 7 vols.  
Brockhaus' Conversation Lexicon ..... 17 vols.  
Watt's Dictionary of Chemistry ..... 8 vols.  
History of the American Episcopal Church, 1587-1883, by William Stevens Perry, D. D., LL. D.  
Historical Collections Relating to the American Colonial Churches, edited by William Stevens Perry, D. D., LL. D.  
Expositor's Bible..... 28 vols.  
Cardinal Newman's Works.

Holmes' System of Surgery.....	8 vols.
National Dispensatory, Stillé and Maisch.	
Pepper's System of Medicine.....	4 vols.
Litch's System of Dentistry,.....	4 vols.
Proceedings of the British Association for the Advancement of Science.....	10 vols.
Proceedings of the Philadelphia Academy of Natural Science.	48 vols.
Proceedings of the American Association for the Advancement of Science. ....	41 vols.
Justin Winsor's Narrative and Critical History of America.	8 vols.
Portfolio of Art, by Philip Gilbert Hamerton.....	21 vols.
Gen. Cullum's Biographical Register of the Officers and Grad- uates of the U. S. Military Academy.....	8 vols.

Numerous and valuable acquisitions have been made to the periodical department. Entire sets of old and important magazines have been purchased, and partial sets completed. As all public questions of the day are exhaustively discussed in the magazines, and their contents are made accessible through the indexes to periodical literature, this department of the library is of the highest practical value.

In making additions to the general library, care has been taken to include subjects likely to be of interest and service to legislators, and as far as possible, to anticipate their wishes and needs.

Marked progress has been made in filling incomplete sets of statute laws by purchasing those volumes, which, because of rarity, can be acquired in no other way.

Especial attention has been given to the law department from the days of the first territorial governor down to the present time. The collection now contains 20,873 volumes, and is so complete that it is believed to be surpassed by those of only a few states.

The list of works on education has been enlarged, including many rare volumes, also the highest authorities in the progressive movements of the present age.

The American Library Association, whose meetings have been regularly attended by the Iowa State Librarian, has afforded valuable suggestions toward raising our work to a professional standard.

The relations between the Iowa Library Society and the State Library have been most cordial, and have proven mutually helpful and beneficial.

At this time the magnitude of the library work fully justifies the employment of a trained assistant, one who has been schooled in library methods, cataloguing, etc., and it is hoped some immediate provision may be made for such service.

It affords me pleasure to acknowledge the aid, co-operation, and hearty support shown to the State Library at all times by the honorable board of trustees. The faithful labors of my assistants have likewise been fully appreciated.

With the growth and consequent advance in usefulness of the State Library, the increase of visitors for study and consultation becomes a matter worthy of record.

I append hereto my financial statement and a catalogue of the books acquired by the library during the biennial period.

MARY H. MILLER,  
*State Librarian.*

**MRS. MARY H. MILLER, LIBRARIAN, In account with the State Library Fund—Appropriation.**
